

This document is a statement of work.

Project title: Project Guffaw

### Objectives

- Develop an LLM capable of generating humor across five distinct categories (Puns, Satire, Observational, Surreal, and Wordplay).
- Achieve a "Joke Success Rate" of >75% (defined as a 4/5 star rating from human evaluators).
- Implement a real-time safety layer to filter out offensive or non-inclusive content.

### People

- Craig Frint: Lead Software Engineer (Contractor).
- Dr. Satya Joke-wala: Microsoft Project Sponsor / Work Authority.
- Microsoft AI Red Team: Safety and Ethics Auditors.
- Internal UX Team: End-user testers.
